Craft Instructions

Spaceship Porthole

Supplies

- 2 paper plates
- Silver foil
- Scissors
- PVA glue
- Pipe cleaners
- Black paint
- Coloured paper

- Pencil
- Hole punch
- Wool or ribbon

1 Paint the front of one paper plate black and leave to dry.

2 Cut out the centre circle from the second paper plate, this should leave you with a ring shape.

3 Begin to wrap strips of silver foil over the ring, folding each piece over the edges and scrunching it behind as you go.

4 Continue to do this until the ring is completely covered in silver foil.

5 Now create some space themed objects for your porthole! Using scissors, cut them out and use PVA glue to stick them towards the middle of the black plate.

6 Cut and bend pipe cleaners to form rings around planets and arms or antenna for the aliens, then stick on using PVA glue.

7 Spread PVA glue around the underside of the silver ring, then stick this down onto the black paper plate and firmly press them together. Then leave to dry.

8 Using the hole punch, make a hole through the top of the porthole. Then thread some wool or ribbon through and tie in a loop to hang the porthole from.
