

## Vocabulary Word Wheel

Try making your own Vocabulary Word Wheel. Cut out both of the wheels on the sheet on the solid lines including between the segments (cut the segments for the top wheel but not the bottom wheel). Write the words from 'words of the week' on the top wheel. On the matching section on the bottom wheel, write the definition of the word from the top wheel. Then glue the middle section of the top wheel on top of the middle section of the bottom wheel.
