

The boat which Grace and her father used to rescue people from the Forfarshire is called a Coble. It is a simple rowing boat made of wood.

Can you make a coble?

You can make a small model of the coble, which could transport some of your small dolls or teddies; or you could make a huge model which you can fit inside.

You can use boxes, cardboard, paper or your building blocks.

You could use things you have in your garden or yard, or even in your sitting room - the settee has made a good boat in this picture.

When your boat is finished why don't you act out Grace's story – use small world toys, or family members to be the characters.

Take some photos of your boats and your acting, and share them to our Facebook and Twitter feeds.
