

Hello to all the boys and girls at West Jesmond Primary School.

We have been very grateful for the wetter weather over this last week as it means that all the fruit and vegetables that are being grown at the moment have received some well need water to help them grow and make them juicy and tasty.

We were wondering whether any of you have decided to try and grow your own fruit or vegetable plant from a seed, maybe a seed that you took from a fruit or vegetable that you were preparing for a meal in your home. If you have, we would love to see some photos of these; maybe you could ask an adult in your home to share some to our school's FaceBook page.

On the subject of food, can you think of what your favourite food is? Is it savoury, or is it sweet? It would be lovely if you could draw a picture of a plate of your favourite meal and label it. We hope it contains some healthy fruit or vegetables.

We are missing seeing you all in school, but until we are all back together again, stay safe, look after your family and remember, keep doing kind things for each other.

With our very best wishes,

Mrs Kennett, Mrs Adair, Mrs Trench and Mrs McCubbin.
