

Some ideas for DT/ Food Tech

- Using Lego or similar products, or junk modelling, what can you design and make? What might you do in the future to improve it?
- Design a gadget in your book that would make your life easier or more efficient, or would improve somebody else's life or job. Include a labelled diagram and explain what it does, and how.
- Take photographs of any cooking or baking they do (if we are encouraging social media posts). Otherwise, write the recipes in their books and draw a picture of it.
- Pick 5 items from your fridge or cupboard. How **might** you combine them to make a balanced meal to feed your family?
- Analyse different food packaging considering the environment, cost,
- Design a package for a certain food product (especially if they have made something)
- Food diary - what food groups are you eating?
